- **Performance delivers the power to get it done.** The 10nm processor and 6GB RAM will keep you running at top speed. And with 64GB of internal storage, expandable up to 256GB with a microSD™ card (sold separately)<sup>4</sup>, you will have plenty of room for files, photos and videos.
- **Long-lasting battery.** Stop waiting around for your phone to charge. Wireless charging and a large 3300mAh battery provide all day usability—delivering the long-lasting power you need, virtually anytime and anywhere.<sup>2</sup>
