

Freedom calls.

Introducing Apple Watch Series 3 with cellular.
Now you can leave your phone behind and
still stay connected wherever you go.

Answer a call from your surfboard. Ask Siri to send a message. Stream your favorite songs on your run.¹ And do it all while leaving your phone behind. Introducing Apple Watch Series 3 with cellular. Now you have the freedom to go with just your watch.

- Use AT&T NumberSync to make and receive calls and texts² from your smartwatch over a cellular connection using the smartphone number your colleagues already know.³
- Cellular keeps you connected with just your watch⁴
- GPS and a barometric altimeter track how far and high you go
- New dual-core processor for faster app performance⁵
- Ultimate sports watch and intelligent activity tracker
- Swimproof so you're always ready for the pool or ocean⁶
- Aluminum or stainless steel case
- watchOS 4 is even more intuitive and intelligent

Apple WATCH
SERIES 3

For more information, please contact me, your AT&T sales representative.

Check apple.com/watch/cellular for participating wireless carriers and eligibility. Apple Watch Series 3 (GPS + Cellular) requires an iPhone 6 or later with iOS 11 or later. ¹ Apple Music requires a subscription. ² SMS/MMS text messaging: Your watch requires your iPhone be synced and be powered on. iMessage must be enabled and your iPhone must be connected to the AT&T network via either cellular or Wi-Fi (if on Wi-Fi, Wi-Fi Calling must be activated on your iPhone). ³ NumberSync for Compatible Apple Watch (Cellular) Devices: Requires syncing of watch with iPhone using NumberSync and an HD-voice activated iPhone on the same AT&T postpaid wireless account. Device Limit: Sync up to 3 watches. Each synced watch needs its own wireless plan. Voice Charges: Calls to international numbers using NumberSync are subject to international rates consistent with watch's rate plan or international package. See [here](#) for information on pay-per-use rates and available packages for international calls. Device does not support roaming. ⁴ Apple Watch and iPhone service provider must be the same. Not available with all service providers. Roaming is not available outside your provider network coverage area. Wireless service plan required for cellular service. Contact your service provider for more details. ⁵ Compared with the previous generation. ⁶ ISO standard 22810:2010. Appropriate for shallow-water activities like swimming. Submersion below shallow depth and high-velocity water activities not recommended.
